

To Whom It May Concern;

I am writing today to express my concern regarding the National Association of Broadcasters petition 04-160.

I have been a satellite radio subscriber for 2 years now and have recently been informed about this petition to discontinue the local weather conditions and traffic updates.

As a driver who commutes 50 plus miles each way on major routes from New Hampshire into Massachusetts, this service is essential to my commute. There are local radio stations that provide traffic updates, however, they are not nearly as accurate as the XM Radio updates. I rely on such current, accurate updates daily to plan my commute accordingly.

I urge you to reject this bill and allow such a useful tool to continue to be offered to all satellite subscribers.

Thank you for your time in this matter.

Sincerely
Bridget Ryan-Tenney
New Hampshire
